## WHO WE ARE

Global Inspirations, llc, is a family owned business established in support of the artisans in underdeveloped countries. We work directly with several Fair Trade Groups, Non-Governmental Organizations and Faith Based Initiatives in an effort to introduce and promote Fair Trade. We offer distinctive handcrafts made from natural, renewable and upcycled material from over three dozen countries.

## OUR MISSION

To support the many artisans who use their skills producing these unique crafts in an effort to support their families and help their communities grow and prosper.

## WHY FAIR TRADE

The purchase of a FAIR TRADE product positively impacts the lives of thousands of families in dozens of underdeveloped countries around the world.

Your purchase provides consistent income that will allow children to attend school, families to be well nourished, safe and healthy living environments, artisans to work under safe and just working conditions and communities to receive clean water, sanitation and health resources.

Please support the organizations listed below:

- International Campaign for Tibet (ICT)
- SEVA Foundation
- HEIFER International
- World Wildlife Fund (WWF)
- Save The Children Federation
